

January 2005

Physical Examination form for the purpose of obtaining a BMW CCA Club Racing Competition License. Reverse side of form to be completed by examining Medical Doctor and returned to the applicant.

Dear Doctor,

You are being asked to examine this applicant for the purpose of obtaining a competition racing license issued by the BMW Car Club of America (BMW CCA) Club Racing. This form concentrates on the organ system(s) and disease processes that may jeopardize the applicant or others attending a competition race event.

The functional requirements of a driver in a competition automobile are:

1. Ability to rapidly operate acceleration, braking and steering mechanisms/systems (mechanical assistance allowed).
2. Vision: distant vision correctable to 20/40 each eye, ability to distinguish basic colors, and peripheral vision to 70 degrees in the horizontal median for each eye.
3. Minimal chance of sudden incapacitation from any disease process.
4. Ability for rapid mental activity and problem solving.

The environment this applicant may operate in is:

1. Temperature extremes from 0 to 120 degrees external to the vehicle (hotter inside).
2. Smoke, fumes, vapor, and dust.
3. Noise, and vibration.
4. Potential for the presence of fire.

Any place where consults are needed, the consultant must have a significant knowledge of the disease process and the high speed racing environment. The consultant does not have to be a specialist in the particular disease process.

Applicants who have not received a medical waiver are required to submit a current physical examination:
every five (5) years for those 18 - 35 years of age
every two (2) years for those 36 - 59 years of age
each year for those 60 years of age and older

Requirements for applicants who have received a medical waiver are defined by the BMW CCA Club Racing Medical Board.

Thank you for your input.

Sincerely,

The BMW CCA Club Racing Medical Board
